

MaceLock™ All-In-One Low Profile Mini Keypad Keypad

Item Code: AC-874-210

MaceLock™ Standalone Access Control

SUMMARY

The MaceLock™ all-in-one low profile mini keypad is a one door access control system, fully integrated in a single unit for standalone keyless entry applications. You get the benefits of managed keyless entry without the inconvenience and maintenance expense of issuing physical keys and replacing locks when keys go unaccounted for.

User access activation and deactivation at each door is simple via the keypad using a secure master programming code. The keypad is backlit for easy viewing under low or no light conditions. The MaceLock™ AC-874-210 is supplied with a choice of black or white bezels which can be easily fitted at any time to best match the environmental decor. Its installation is easy; equipped with an eight conductor cable for wiring a 12V DC power source, lock, exit button, and a door bell.

The MaceLock™ all-in-one series compact design is cost-effective, easy to install and simple to manage.

FEATURES

- Backlit keypad, LEDs, and sounder annunciation
